

SANNIKANTI ASHOK

7207857767 | ashok.sannikanti2003@gmail.com | LinkedIn | GitHub | LeetCode

Summary

Recent B.E. graduate with a strong foundation in Java, SQL, Data Structures & Algorithms, and Object-Oriented Programming. Skilled in developing backend applications, REST APIs, Git, and web technologies through academic projects and hands-on learning. Familiar with Agile methodologies, SDLC, with strong analytical and problem-solving skills. Passionate about building high-quality software solutions and eager to contribute and grow as a Software Engineer in a collaborative environment.

Education

B.E – Electronics and Communication Engineering

Saveetha School of Engineering, Chennai

Graduated: 2025

CGPA: 7.8

Skills

Programming Languages: Java, C

Backend Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate

Databases & Querying: MySQL, JDBC

APIs & Security: RESTful APIs, JWT Authentication

Tools & Build: Git, GitHub, Maven, VS Code

Core Concepts: Data Structures & Algorithms Computer Networks, Operating Systems, SDLC, Multi - Threading, Exception Handling

Projects

E-Commerce Backend API | Spring Boot, MySQL, JWT

Dec 2025–Feb2026

- Developed RESTful APIs for user authentication, product catalog, cart, and order management using Spring Boot and Spring Data JPA, while optimizing the MySQL database schema to improve query performance by approximately 45% through indexing and query tuning.
- Implemented JWT-based authentication with role-based access control and documented 25+ REST endpoints in Postman to enable secure access, streamlined testing, and frontend integration.

Wheat Quality Prediction Using Machine Learning

Jan2025– Mar 2025

Built machine learning models to predict wheat quality at early stages to support agricultural decision making. Designed Linear Regression, Logistic Regression, and Random Forest algorithms on structured datasets. Performed data preprocessing and feature selection to improve prediction accuracy and classification results.

INTERNSHIP

Backend Developer Intern | VDT Edutantr Ventures Pvt. Ltd.

Jul 2025- Oct 2025

Completed a Backend Developer internship at Edutantr Ventures Pvt Ltd., developing scalable backend applications using Java and Spring Boot. Designed and developed secure RESTful APIs for a College Management Portal following MVC architecture with MySQL integration. Used Spring Security, GitHub, Maven, and Postman for authentication, version control, build automation and API testing.

Achievements & Certifications

- Solved 400+ Leet Code problems, focusing on Arrays, Strings, and Dynamic Programming.
- Oracle Cloud Infrastructure 2024 – Generative AI Certified Professional.
- Achieved a 5-Star Java Badge on Hacker Rank for proficiency in Core Java.
